PORR

XXL demolition job.

Thus, for instance, the sheet metal panels were removed first, followed by the cross-pipes and, finally, the main beams. An additional excavator was used to crush the demolished parts to transportable sizes after which they were loaded and transported off in containers.

Impressions

Image notes

1

Gerhard-Hanappi Stadium.

The roof of the stands of this Viennese sports venue was removed using one of the largest excavators in Europe.

2

Demolition of Gerhard Hanappi Stadium.

Up to six excavators were used simultaneously to accomplish the demolition job.
