Interior demolition as part of the building extension

The works are being carried out in phases and in compliance with all applicable safety and protection regulations. Interior structures, installations, and fittings that are no longer required are carefully removed and properly disposed of. At the same time, the existing building fabric is being preserved and prepared for further use.

The aim of these measures is to structurally prepare the building for the clinic's expansion and to enable the implementation of a modern, future-oriented infrastructure. am Standort.
